Dear Members and Friends,

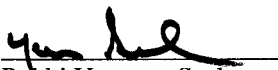

Over the past few days, there has been confusion regarding Hatzolah in our community. In particular, the perplexing existence of two separate Hatzolah organizations claiming our support necessitates a clear and unambiguous clarification.

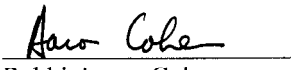

To avoid further confusion: the one and only telephone number of the new **Hatzolah of Passaic-Clifton**, functioning under the guidance and oversight of the medical director, Rabbinic committee, and board, is **973-472-1002**. We support this group exclusively.

On Wednesday, 11/21/07, the community received a letter from the old **Hatzolah of North Jersey**, which intentionally distorts the truth by including a letter of endorsement from the Rabbonim and City Councilmen. We did not write any letter in their support; in fact, that letter was written in support of the newly-formed **Hatzolah of Passaic-Clifton**.

We look forward to working with the new **Hatzolah of Passaic-Clifton** to ensure the outstanding care that our community deserves.
